The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate or render obvious the claimed reactive orange dyes or the process for the preparation thereof. The closest prior art dye is disclosed in U.S. Patent 5,011,917. The dye disclosed therein differs from the claimed dyes in that an methylcarbonylamino group replaces the alkoxycarbonylamino group of the claimed dyes. The reference provides no motivation to modify the dye disclosed therein to arrive at the claimed dyes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
